**SCE&G - Wateree Station
TV 1900-0013 [Unit ID 01 and 02]**

**SCE&G - Williams Station
TV 0420-0006 [Unit ID 01]**

Dear Ms. Hines:

The Bureau of Air Quality (Bureau) has reviewed your letters, dated December 16, 2014, and the additional information dated January 29, 2015, concerning a compliance extension request submitted in accordance with 40 CFR 63.6(i)(4)(i)(A). These letters detail the reasoning why SCE&G Cope, Wateree, and Williams Stations need additional time to comply with 40 CFR 63 Subpart UUUUU - National Emission Standards for Hazardous Air Pollutants for Coal- and Oil-fired Electric Utility Steam Generating Units. The reason for the extension request is to install additional controls. This request has now been determined complete.

The compliance date for existing sources subject to 40 CFR 63 Subpart UUUUU is April 16, 2015. Per 40 CFR 63.6(i)(4)(i)(A), the Bureau has authority to grant compliance extensions up to twelve (12) months beyond the compliance date. The Bureau is extending the Subpart UUUUU compliance date to April 16, 2016, for the following affected sources:

**Cope Station
Permit #TV-1860-0044
Unit ID 01
Equipment ID UB1**

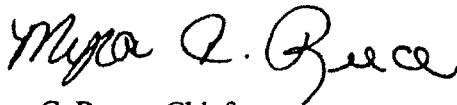

**Wateree Station
Permit #TV-1900-0013
Unit IDs 01 & 02
Equipment IDs UB1 & UB2**

**Williams Station
Permit #TV-0420-0006
Unit ID 01
Equipment ID UB1**

Semiannual progress reports indicating whether the steps toward compliance outlined in the extension request have been reached shall be submitted no later than January 31 for the July 1 to December 31 period and July 31 for the January 1 to June 30 period each year. The first progress report is due July 31, 2015. A final progress report shall be submitted after compliance is achieved. Progress reports shall be submitted to Mr. Heinz Kaiser, Air Toxics Section Manager of the Bureau of Air Quality at 2600 Bull Street, Columbia, South Carolina 29201.

In accordance with 63.6(i)(14), the Bureau may terminate this extension of compliance at an earlier date than specified in this approval letter if steps toward compliance are not taken. Any compliance extension requests beyond April 16, 2016, must be made to the United States Environmental Protection Agency (EPA). If you have questions, please contact Heinz Kaiser, Air Toxics Section Manager of the Bureau of Air Quality at 803-898-4089, or by email at kaiserh@dhec.sc.gov.

Sincerely,

Myra C. Reece, Chief
Bureau of Air Quality
